PASSIVE RIOT & AGGRESSOR CONTROL

Shock Riot Shields

MAXI (H900mm x W600mm x 4mm Thick)

MINI (H500mm x W600mm x 4mm Thick)

MIDI (H250mm x W600mm x 4mm Thick)

APPLICATION: The Force Shock Shields will be used in riots, crowd and prisoners control to protect personnel from thrown objects and violent attacks as well as immobilize and deter aggressors in the process of restoring order with minimum force.

USED BY: Prisons Department, Police, Military and Contract Security Companies

Features Include:

- High voltage, non-lethal, safe yet effective shock via securely fitted conductors all over the front area of the shield.
- Guard in full control with press button operation situated in moulded handle as well as on/off indication L.E.D.
- Visible shock sparks acts as an added deterrent.
- 4mm Thick see through clear polycarbonate shields, offering protection against thrown objects.
- Fully rechargeable including nickel-cadmium rechargeable battery with AC/ DC charger as well as L.E.D indicators.
- Sealed detachable electronic housing for easy maintenance.
- Unlike with use of firearms or Batons, no permanent damage or use of unnecessary force.
- Optional: Safety wrist strap which automatically activates warning siren and simultaneously renders shield harmless if shield is disarmed. (Mini, Maxi & Riot Sizes)
- Optional: Built-in identification stickers i.e. POLICE, PRISONS, SECURITY etc., available on order.
- Optional: Multi charging stand that holds and charge upto five riot shields simultaneously.
- Shock Tested by South African Bureau of Standards and in use by Government Departments
