

SURPRIZER DOOR GAS

AGENTS WANTED !

UNIQUE BUSINESS OPPORTUNITY

SELL AND INSTALL THIS UNIQUE SELF-DEFENSE DEVICE

OPERATION:

The Surprizer Gas Door Device is a must for every home or business. From the outside the device looks like an extra lock on your front and back doors but, is in fact loaded with a pepper gas cylinder. In case of an emergency, simply press the panic button firmly from the inside of the door to spray the gas at the intruder on the opposite side of the door. (Range approximately 2 metres). The released pepper gas is highly irritating to the eyes, nose and throat of the "unwanted intruder" and can render him helpless for 20/30 minutes, giving you time to react. For your own internal protection against intruders in your home, retreat to your bedroom, lock the door, then activate *The Surprizer* in your bedroom door, which in turn will emit the gas. This will deter the intruder and chase them out. This unique unit takes 10 minutes to install (no screws or attachments needed)

TARGET MARKET / EARNING POTENTIAL:

High earning potential as every home, business, block of flats are potential clients with possibly 2 or more units each. Profit also on sales of refills and installation. We can suggest a range of other outlets to market.

DON'T DELAY

TAKE ADVANTAGE OF THIS OPPORTUNITY NOW!
